- * Cost effective
- * Saves energy
- * Reduces wear and tear on boiler
- * Reduces carbon emissions
- * Helps combat global warming

Save Energy—Save the Environment—Save Money

Sempatherm - Save Energy - Save the Environment - Save Money - Save the Environment - Save Money - Sempatherm

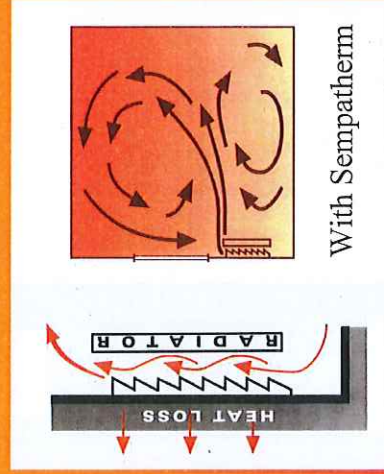

Sempatherm Radiator Insulation Panels are specially designed to reduce the amount of heat loss from your radiators into the walls. The profile of the panels improves convection and immediately makes the room warmer.

The main benefit being lower fuel bills **expect a minimum of 12-15% reduction.** Also there will be less wear and tear on your boiler which will reduce maintenance costs.

Normal Convection

Increased Convection

Increased CONVECTION of warm air at lower levels when Sempatherm panel installed. Based upon computer modelling studies undertaken by U.K. A.E.A. Laboratory, Harwell, Oxford.

Sempatherm panels are simple and quick to install, each radiator only takes a few minutes to complete.

Sempatherm Radiator Insulation Panel Pack

Cut Sempatherm Panels to Size

Apply Double Sided Tape to Sempatherm Panels

Fit Sempatherm Panels in place
